Men Hurried To Docks Without Clothing Early In Morning.

## RED CROSS FURNISHES AID TO SHIVERING MEN

Ship Was Former German Liner, Now Used In Transport Service.

(Associated Press Telegram)  
Washington, Oct. 15.—An official report to the navy department says a muster of the persons known to have been on the America shows none missing. There was no indication of the cause of the sinking. Steps are already underway for raising the ship.

(Associated Press Telegram)  
Hoboken, N. J., Oct. 15.—The American transport America, sank at her pier here this morning. She was reported to have struck a pier and although details were withheld by the authorities it was reported that between 30 and 40 of the crew were drowned in the boiler-room.

All the troops were reported to have been taken from the ship and were safe. The cause of the sinking was unknown, but it was said that the ship was undergoing interior repairs that may have in some way to do with the entrance of water into her hold.

The sinking occurred at 5 o'clock this morning while most of the troops were still in their berths. In their hurried escape from the ship to the pier most of them had no time to don their clothes.

The Red Cross was called on for assistance and soon blankets, clothing, and food also arrived at the pier for distribution among the shivering soldiers.

The transport was formerly the big Hamburg-American line passenger ship America. She registers 22,622 tons gross. She was taken over here when the United States entered the war. The vessel was 669 feet long, and was built in 1905. With a navy crew on board the ship has been in the service of the army as a troop transport.

Inasmuch as the America makes the second transport out of commission in New York harbor since the war, on April 25 last the liner St. Paul sank while being warped at her pier.

Water poured into an open coal port at the bow and the ship was not raised until about two weeks ago. It was learned that a gang of men was at work at the time the vessel settled and it was suggested that one of these men, being a civilian not familiar with marine machinery, opened a sea cock under the impression that he was closing it. The submerged America, next to the largest of the governments transports was within sight of persons crossing the lower Hudson river on ferry boats.

Decks A and B were wholly above water, which was within three feet of deck B. The vessel appeared to be resting on an even keel.

Tug boats and government vessels with cranes were at work and it was evident that operations had been begun to raise her.

The America, of 22,622 tons gross, has a capacity of carrying eight thousand troops and a crew of 1200 men. Of these troops it was said that only 200 or 300 were on board at the time. All the coal had been placed in the bunkers except a small portion to have been loaded today.

Inasmuch as the troops and crew are reported to have escaped it was believed the vessel sank slowly although not so leisurely as to give the men time to take their belongings with them. One estimate was that the ship went down in 15 minutes. Red Cross workers were summoned to administer to the serving soldiers and relief supplies arrived in army trucks throughout the forenoon.

Major H. B. Craig, chief of the military police at the port embarkation referred inquirers to the office of Rear Admiral Albert Gleaves.

First Lieutenant H. B. Lawson, personal representative of Admiral Gleaves said all questions would have to be answered by the navy department officials.

Regarding possible loss of life a naval official here in authority said: "Only incomplete information is in the hands of the authorities of the number of lives lost. It must be determined by a checking up of the muster roll."

This official and other investigators stated that no circumstances of a suspicious character had been learned of but that the inquiry was continuing.

The ship was ready to weigh anchor and depart for a foreign port.

A board of inquiry composed of seven members, whose names were withheld, began this morning an investigation of the circumstances surrounding the sinking of the transport.

Coupled with reports of alleged faulty inspections and defective ship fitting on the America were indications that arrests would be made before the day is over.

## BELIEVE SUB WARFARE TO REACH CREST SOON

(Associated Press Telegram)  
Amsterdam, Oct. 14, Monday.—There is good reason to believe that the German submarine warfare will reach a climax during the winter, according to the Rheinisch West Phalian Gazette, which says that it will produce an economic crisis of unanticipated dimensions in enemy countries.

## ARREST TWO SUSPECTS.

Toledo, Ohio, Oct. 15.—Suspected of having cracked the safe in the Exchange Bank at Clayton, Mich., last night, Henry King, 50, of Toledo, and William Adams, 35, of Toledo, were arrested early today by police stationed at a road leading into the city from Michigan.

The officers fired several shots at the two men, who were driving an automobile.

## FIGURES SHOW EPIDEMIC HERE IS DECREASING

Incomplete Returns Indicate New Cases Will Be Cut In Half Today.

## ONE DEATH ATTRIBUTED TO INFLUENZA IN CITY

Physicians Report 280 Cases For 24 Hours Ending 6 P. M. Sunday.

(Associated Press Telegram)  
Camp Sherman, Chillicothe, O., Oct. 15.—The total number of deaths at the cantonment here from Spanish influenza reached 964 at noon today, there being 22 deaths from 3 p. m. yesterday at noon today.

Progress of the influenza epidemic in Newark showed a decrease Tuesday for the first time for five days, according to unofficial figures obtained by the health department at noon today. Incomplete reports indicated that the new cases today would be about 7 per cent below those reported Sunday and Monday.

For the 24 hour period ending at 6 o'clock Monday night, 280 new cases were reported. This was an increase of 15 per cent, the health department records showed.

Tuesday's reports were not complete enough to warrant giving out figures, it was stated.

The 2800 cases, reported Monday are being cared for by 35 of the city's physicians. The other six, who made no reports, are themselves victims of the disease.

One death has been reported—that of Mrs. Frank Horner, Mount Court.

The crest of the epidemic should be reached today and the health authorities hope that tomorrow's report will show such to be the case. The Red Cross has been kept busy making gauze masks for use in the sick room, but the appeal for help to go into the homes and assist in the household duties has not met with ready response. There are still many families down with the malady without anyone to care for them.

Dr. R. G. Downs, of East Newark, is the last physician to be reported ill with the epidemic. Other physicians who are ill are: Drs. W. E. Boyer, C. F. Legge and E. Florence Str-Smith. Dr. C. E. Evans is able to be out on the street.

Nearly all the graduate nurses of the city are still confined to their rooms but in the majority of cases are showing a slight improvement.

## MRS. FRANK HORNER DIES OF INFLUENZA

Mrs. Daisy Horner 40, wife of F. S. Horner, manager of the Marietta Paint company, died this morning at 7 o'clock of influenza followed by pneumonia.

Besides her husband she was recovered by one daughter Thelma aged 13, three sisters and two brothers, Misses Edith, Eunice and Jessie Hughes of this city and Garfield and George Hughes of Columbus. Private funeral will be held in the home at Mount St. Bernard at 2 o'clock. Rev. Mr. Hazlett will officiate. Interment in Cedar Hill.

## WILL CONTINUE BAN WHILE FLU INCREASES

(Associated Press Telegram)  
Columbus, Oct. 15.—There appeared no sign today that the orders issued last week by the state health department closing all theaters, churches, schools and public meeting places would be withdrawn in the immediate future. With more than 60,000 reported cases of influenza and pneumonia in Ohio health officials are of the opinion that the health of people in this state would be to some extent jeopardized if these restrictions were abolished at this time.

## 5,000 NEW CASES ARE REPORTED OVER STATE

(Associated Press Telegram)  
Columbus, Oct. 15.—Approximately 5000 new cases of Spanish influenza in various sections in Ohio were reported to the state department of health up to noon today. To date, approximately 65,000 cases have been reported.

State health authorities announced today that the disease has now been reported from every county in the state.

The disease is most epidemic in East Palestine and Leipsic. East Palestine today reported that it now has sufficient physicians to handle the cases there, but not enough nurses.

Fifty per cent of the population of that city is suffering from influenza. J. E. Bauman, acting health commissioner for Ohio, announced today that Surgeon General B. H. of the United States public health service had appointed him field director for Ohio of the public health service. This appointment, it was pointed out, would give Bauman necessary authority to order physicians and nurses to towns needing them without referring to Washington.

## SICK SOLDIERS WILL GET 10 DAY FURLOWS

(Associated Press Telegram)  
Camp Sherman, Chillicothe, O., Oct. 15.—Furloughs of not to exceed 10 days to men who have been ill with influenza or pneumonia at Camp Sherman will be granted beginning October 17, provided they are discharged.

## PRESIDENT'S NOTE IS DEMAND FOR FULL SURRENDER

Enemy Can Prevent Invasion of Country Only By Laying Down Arms.

## BELIEVE GERMANY WILL ACCEPT MOST ANYTHING

Germany's Insincerity Is Nailed By Wilson's Demand for Safeguards.

(Associated Press Telegram)  
Washington, Oct. 15.—Unconditional surrender by Germany was the interpretation put on President Wilson's answer to the German plea for peace by both American and allied military officials here. Only by absolute surrender, they said, can the enemy now prevent the terminating evidence of his defeat—invasion of Germany.

There is no doubt among officers that sooner or later the enemy will be compelled to accept these uncompromising terms. The German army is being pounded to death in the field, they declared, and the only thing Germany can hope to save from the wreckage is to prevent the war being carried across her border. And that can be accomplished only at the price of putting herself as utterly at the mercy of the victors as did Bulgaria.

Military opinion appeared to be in full agreement that in enunciating the policy that absolute surrender is demanded, the "present military supremacy" of American and allied forces must control any armistice agreement, President Wilson had placed it beyond the power of Germany to reap any benefit from the insincere move toward peace.

The question of the agencies to be employed in framing armistice conditions naturally would come up only when Germany has complied with the president's other requirements. It seemed probable to officers, however, that the military board of supreme war council at Versailles would be the natural agency. The council itself is composed only of the premiers of the allied nations and President Wilson. The military and all other boards of the council are advisory only and their recommendations must be ratified by the council to become effective.

Without question, Marshal Foch, the supreme commander, and the field commanders, Generals Petain, Haig, Pershing and Diaz, would be fully consulted and the resulting definite terms of surrender in all probability would be at once ratified and laid before Germany as the only price for respite from attack.

The general elements of the terms to all Germany are already known. It was the situation of today at the front that constituted the supremacy of which the president speaks—the situation which must be adequately safeguarded. As competent military judges see that situation, the German army is in a desperate strategic position for man-power. There also is striking evidence of waning morale.

With the shortage of man-power to meet, it was said that the German general staff has logically decided upon shortening its lines to reduce the resisting power of its reduced forces. To accomplish a scientific retreat, however, the lines in the rear must be prepared, organized and equipped in advance and reserve troops must be in stalled in those lines to receive and check the enemy's pursuit after the retreating forces have passed through to rest and reorganize in the rear.

Under the terrific and never-ceasing hammering of the allied armies, however, they have no time to arrange for withdrawal on the scale necessary to meet their shrinking forces.

Many officers have feared that by diplomatic trickery the enemy would secure enough time to fall back on the Rhine, shorten his lines, redistribute his troops, reorganize his stock of guns and munitions, and prepare for a new defensive battle. President Wilson's reply has shown the enemy, it was said, that this program no longer is possible to him. He must fight it out now or surrender.

One official, summarizing the situation, said: "Just as we had feared last March of being allowed 48 hours too late to stop the drive toward Amiens, now the enemy, dominated by the power and continuity of our attacks, is no longer succeeding in filling the gaps. But while in March our forces were constantly increasing, today those of the enemy decrease."

To safeguard this hard-won supremacy, it was said, drastic measures would be required in case of an armistice. Germany as a nation, it was said, must be treated as a military views substantially as the individual German soldier who surrenders is treated—it must be disarmed and guarded.

Guarding in this sense, would mean absolute control of the military, and the way to the Rhine valley. The great fortified zone of Metz-Thionville and the French border, at the same time guards the way to the Rhine to the south. Allied occupation of this fortress, officers thought, would be a certain requirement.

In some such terms must President Wilson's reply be stated for military purposes. There can be no wavering otherwise, it was said, of the only alternative road to absolute victory, through Germany's army. That battle road over which the allied armies are now marching in full force.

President Wilson's reply to Germany, coming talk of an armistice, until the Germans are ready to surrender and finally closing the door to peace negotiations with Germany was not at all a new idea today. It actually had not arrived at Berlin until a few hours ago.

## CITY BOND QUOTA NOT REACHED BY TEAM WORKERS

Find Duplications In Reports and Renewed Effort Is Asked.

## ONLY FEW REPORTS FROM COUNTY RECEIVED

Salesmen Asked To Get Larger Subscriptions From Buyers.

Chairman E. C. Wright of the War commission announced today that it will be necessary for the city bond salesmen to try and secure increased subscriptions if the city is to be placed in the honor class and go over the top.

It has been found in checking up the bond sales that there were a number of duplications caused by salesman taking credit and reporting sales made by banks and in some instances by factory teams, when told by the prospect that he had already subscribed.

Another matter which will reduce the total announced yesterday is the fact that the subscription of \$180,000 by the B. O. covers the division. While Newark will receive the greater amount of credit, a part of it must be divided between other communities.

More bonds must be sold and wherever possible salesmen are urged to secure a larger subscription from those people who can afford to buy more bonds than the amount subscribed.

Only scattering reports have been received from the country districts but it is hoped to have a full report in by the latter part of the week.

## GRANVILLE BOY SAVED FROM SEA

On Vessel In Collision, Rendered Unconscious, But Saved By Strange Freak of Fate.

Special to the Advocate  
Granville, Oct. 15.—Mr. and Mrs. Carl Price have received a letter from their son John of the United States Navy, who was on the ill-fated "Westgate," which went down on a collision with the "American Explorer" in the North Atlantic, during a heavy fog. Young Price said that he had no time even to don a life preserver, nor to make his way to a life boat, but was thrown into the water. A great wave washed him to one of the boats and he was swept out to sea. He was caught by two boys who were on the boat and he realized that he was in luck. He remained there going down the second time and the rest of the "Westgate" was saved by his rescuers from the American, who had found him. Caught in some heavy waves on a boat in such a way as to hold his head out of water, he did not regain consciousness until the rest of the "Westgate" was saved. He is now in Boston suffering from strained muscles and torn ribs, and the surgeon promises that he will be all right in about two weeks.

Rescue Workers Take Up Work Where It Was Stopped By Night.

## MANY INDIANS ARE KILLED ON RESERVATION

Find Many Die of Exposure After Harrowing Experiences In Fire.

(Associated Press Telegram)  
Duluth, Minn., Oct. 15.—More than six hundred bodies of persons burned to death in the forest fire which swept over northwestern Minnesota last Saturday have been recovered today, and it was expected this number would be increased by three hundred and possibly by four hundred, when the entire devastated district has been gone over.

Searching parties started from Moose Lake, Cloquet and Duluth before day-break today and took up the work where it was left off last night when darkness made it impossible to distinguish bodies from charred and blackened tree trunks.

During the night those detailed to clear the roads and rebuild bridges covered miles of local territory which has been untouched by rescue workers and searching parties and sent to relief stations many truck loads of badly burned, half starved settlers, who had escaped death by the fire and who were found wandering about in a dazed condition.

Many of the bodies brought in today indicate that death was caused by exposure and lack of food, rather than from burns.

Many dead were found with hands and heads swathed in rude bandages, indicating that their lives might have been saved had help reached them soon after the fire passed.

The rescue party in the Fondulac Indian reservation brought reports of many deaths among the Indians. Many, however, saved themselves by taking refuge in lakes and streams until the fire passed.

Business men of Duluth today sent out parties of veterinarians in an effort to save some of the live stock which is wandering through the burned districts in search of food.

So far as the forest fire is concerned there is little likelihood of further damage.

## HUNS ASK FRANCE TO SAVE TOWNS

Want Agreement Not To Bombard French Cities. Ask Permission To Send Civilians Back.

(Associated Press Telegram)  
Amsterdam, Oct. 15.—The German government has proposed to France that in common with her allies, France undertake to refrain from bombarding the large towns of northern France, and offer to permit an agreement with Germany to permit at any rate a portion of the population of Valenciennes to pass into the French lines, says an official statement from Berlin.

The Berlin government in making the proposal represented itself as unable to prevent the eastward flight of the population of Valenciennes owing to their fears that the allies would bombard the town. The proposal was made through the Swiss government.

(Associated Press Telegram)  
London, Oct. 15.—Several of Germany's largest torpedo boats recently left Zeebrugge, one of the German naval bases on the Belgian coast, during a stormy night, according to a Dutch frontier message forwarded from Amsterdam on Monday to the Central News Agency.

The German warships were filled to their capacity with soldiers and proceeded for Germany. The Germans also are reported to be evacuating Ostend.

## YANKES USE TANKS.

(Associated Press Telegram)  
With the American Army, Northwest of Verdun, Oct. 15.—(Nyon)—Tanks were brought into action by the Americans today to break away through the enemy wire entanglements west of Romagne. Despite German resistance the progress of the Americans early reports said, was satisfactory today.

The Germans apparently were ready to contest the ground as stubbornly as they did yesterday. The enemy artillery was being used freely to hold the Americans, but the Yankee gunners were doing much to break down the German resistance.

## FRENCH APPROACH RETHEL.

(Associated Press Telegram)  
Paris, Oct. 15.—French troops have made an important advance toward the important town of Rethel and have captured the town of Nanteuil-Sur-Aisne, two and one-half miles west of Rethel, says the war office statement today.

South of the Meuse the French have made a marked advance. The towns of Remies, Barenton, Oel and Monceau-Le-Wast, have been taken.

In the Argonne the French have reached the Aisne, west of Grand Pre, and have captured the villages of Olizy and Termes. Nearly 800 prisoners were taken in this region.

The capture of Nanteuil indicates that the French are drawing their whole Champagne line northward. Rethel, it now extends from Vouziers to Faverzy, to south of Rethel, thence to Nanteuil, to the canal, south of Chateau Porcien, west of this point the line is indefinite.

## AMERICANS TAKE PRISONERS.

## 10,000 PRISONERS TAKEN IN FLANDERS

(Associated Press Telegram)  
Paris, Monday, Oct. 14.—Reuters has been taken by the allies. This city which before the war numbered 25,000 inhabitants, is the first important Belgian town from which the Germans have been driven.

This morning, on the anniversary of the battle of Jena which was fought October 14, 1806, the battle flared up along the Flanders front and the first day's program gave reason for high hope.

Under the command of King Albert of Belgium the British, Belgian and French armies attacked at 5:30 o'clock, there was no artillery preparation but the troops advanced under cover of a creeping curtain of fire of extreme power. Following the gales which had been blowing for several days the weather turned fine and troops progressed methodically and in a most satisfactory way. Machine gun nests were forced to surrender one after another, and at 6 o'clock tonight the advance amounted to four miles in the direction of Courtrai for the British, four miles toward Thiel for the French, and two and a half miles in the direction of Thorout for the Belgians. To the French in the center of the line fell the honor of capturing the city of Roulers and the plateau covering it.

Nearly 10,000 prisoners have already been counted and a large amount of material and many guns have been taken. Mention also must be made of two batteries, which were taken with the horses attached to the guns. This shows that the machine gunners failed to speak in reporting the battle, could not be accomplished.

German reserves which attempted to hurry up to the front line did not escape the keen eyes of the allies, and a series of fresh notches in the German line today. They kept up their swinging blows at the enemy from early this morning until late this afternoon.

Although the action extended to the east bank of the Meuse, the most savage fighting took place about Romagne and to the eastward where the enemy is striving to maintain that section of the Kremsbeld line running northward from Romagne. The battle has been in and over the wire entanglements before this defensive position and the excellent natural fortifications along which the present line of resistance is laid hanging on the wire tonight are Germans whose equipment (Continued on Page 7, Col. 5)

(Special to The Advocate.)  
Granville, Oct. 15.—At the ringing of the fire alarm Monday afternoon, the citizens of Granville, men, women and children, the girls of Shepardson college and the men of the Student Army Training corps and the strangers within our gates, sprang to sudden alertness and hastened to the scene of the "conflagration," the T. and O. station, where at 3:15 the celebrated war trophy train No. 2, pulled in with waving banners and shouts of greeting from a great throng of spectators.

Although the meeting was not scheduled, having been decided upon by Mayor Coon shortly after noon, who telegraphed an invitation to the managers at Bucyrus, which was promptly accepted, and although most of those in the crowd had already subscribed for their Fourth Liberty Loan funds at the bank, many of them to what they had considered the limit, the sum of \$30,000 was raised while the train stood on a siding at the north of the station. The whole affair was admirably managed by Myer Coons.

There was no delay in the program. Promptly to the minute, Mayor Coons mounted the railings of the flat cars enclosing the trophies, and introduced the first speaker, F. G. Dietz broker, of Cleveland, who presented many valid reasons for subscribing to the Fourth Liberty Loan, among them being the simple illustration, "Suppose you loan a thousand dollars on first mortgage at six per cent," he said, "If you are honest in making your returns to the assessor, that loan will net about two dollars and a half more than the thousand loaned to the government at 4 1/2 per cent. Two dollars and a half per year is a small sum to pay for patriotism, ease of conscience and the safest investment you can make, just now."

He was followed by Fred Kaley, also of Cleveland, who immediately incited the crowd to action. As his powerful voice sent forth his message and his appeal, responses came so rapidly that it taxed the powers of the mayor and the clerk, Roe Morrow, to identify and to enroll their names, with the amount of their subscriptions. Hands were still going up when the train pulled out. Subscribers may secure bonds at the bank until Saturday, when the drive closes.

A thrilling feature of the program was the introduction by Mr. Dietz of four youthful veterans of the war who furnish concrete examples of what it is doing to men and to implement. First was Lieutenant Fennell of the celebrated French Blue Devils; George Turnbull of Delaware, the first American to fight in France, having enlisted in 1914 and seen action with the Cameron Highlanders. He had been gassed, bayoneted, and had suffered 33 wounds and suffered everything save actual extinction. Francois Dalecki, corporal, 1st regiment, distinguished for bravery and covered with French medals, among them the red cordons of the Legion of Honor, and lastly Sergeant Bill Kaiser of East Liverpool.

A long double line formed and filed slowly through the train, viewing with many thrills these wrecks of mighty warfare. The 74th German plane brought down by Gunemeyer, big guns and little guns, the idolized "75" of the French army, trench guns, hand grenade throwers, rifles, and other relics too numerous to mention.

Mr. Kaley said that Granville was the liveliest bunch they had encountered in their ten days' drive, and that without schedule and with no warning save the announcement of the arrival of the trophy train. So delighted were Mr. Dietz and Mr. Kaley with the reception accorded them that each made a cash payment on a fifty dollar bond to be placed to the credit of the town. Lux with hot water is perfect for woolens. No rubbing; no friction; leaves woolens and flannels so soft, so fluffy.

Lux will cleanse silk underwear without turning it yellow. Read the directions for SILK fabrics below.

## A Wonderful New Product

**Won't shrink woolens! Won't turn silks yellow! Won't injure even chiffons!**

**N**OTHING else like it made anywhere. Not a soap powder. Not a chipped soap. Not a cake of soap! But *wonderful flakes!* Even in looks entirely different from anything you have ever seen. Ready to use; no shaving or chipping required; pour boiling or very hot water over the flakes, whisk into a lather, and instantly you get just the rich, creamy lather you have always wanted. Dissolves

dirt and cleans perfectly *without rubbing.* These flakes won't hurt any fiber, whether cotton, silk or wool! *Can't injure anything that pure water alone won't injure.* Order a package today and make some of the tests shown below. That is the way to settle for all time the product you will use for all fine laundering.

Lux, so delicately won't injure even chiffons. It leaves your daintiest Georgette and crepe de Chine blouses just as they were when new!

### How to wash woolens so they will not shrink

Woolen fabrics differ wholly from any other fabric. In wool, the surface of each fiber is made up of scales, overlapping like tiny fish scales.

Ordinarily, when wet, these fibers expand, but the moment alkali in water comes in contact with wool fiber, these little scales interlock, the fiber draws up—and the fabric has "matted" and shrunk.

The sensitiveness of wool fiber to alkali and to rubbing are the causes of shrinkage.

In the choice of your soap product, and in the way you handle woolens, lies the secret of safety, of complete success in laundering woolens.

*Lux actually won't shrink woolens.* It contains no free alkali; its thick, hot lather dissolves dirt without rubbing; its wonderfully pure, mild flakes leave woolens soft and fleecy, just as they were when new.

So many other products have claimed that they won't shrink woolens, and you may have had so many woolen garments shrink until they were no longer

### Dissolves instantly in hot water

This wonderful new product is not only new, different, but it actually *looks* different.

The moment you open the package, you will discover that you have never seen a soap product anything like Lux.

Lux is made in the form of flakes. These flakes are thin, delicate, pure, actually transparent. They dissolve immediately in hot water. This makes Lux unequalled for the

speedy production of an excellent lather.

It is the modern form of soap—no shaving or chipping required. It makes an instant lather which dissolves dirt *without rubbing.* In fine laundering soap should never be rubbed directly on the article. Lux is such an advance over all other forms of soap that once you have tried Lux, you will never again be satisfied with anything else for fine laundering.

### Why you need these wonderful flakes for all fine laundering

Lux is made in flake form because in these tiny flakes is condensed more real cleansing value than is possible in any other form of soap.

Lux needs only to be used in small quantities owing to its absolute purity and wonderful richness.

This is due to the fact that in flake form, Lux can be kept pure and concentrated; in this form,

there is no need for any air, any moisture, or any kind of "filler," which has no cleansing value. *Lux will not harm anything that pure water alone will not injure.*

These flakes melt the moment you throw them into hot water. They are so completely soluble that not the slightest trace of soap is left in the garment to yellow it.

### Try Lux for all these things

Flannels

usable, that when we tell you that Lux positively won't shrink woolens, you find it difficult to believe. But will you not order one package and try it on some woolen article in your home? Use it the Lux way—with hot water. Think what it means to you to have found at last something which will wash woolens wonderfully!

### Why silks turn yellow

Authorities on silk say that the action of *alkali* on silk makes it acquire a yellow color which cannot be washed out. Also that when an alkali is combined with hot water, it affects the silk fibers, breaking them down very easily. Lux contains no free alkali and gives a remarkable lather when used in moderately warm water. You can wash silk with Lux over and

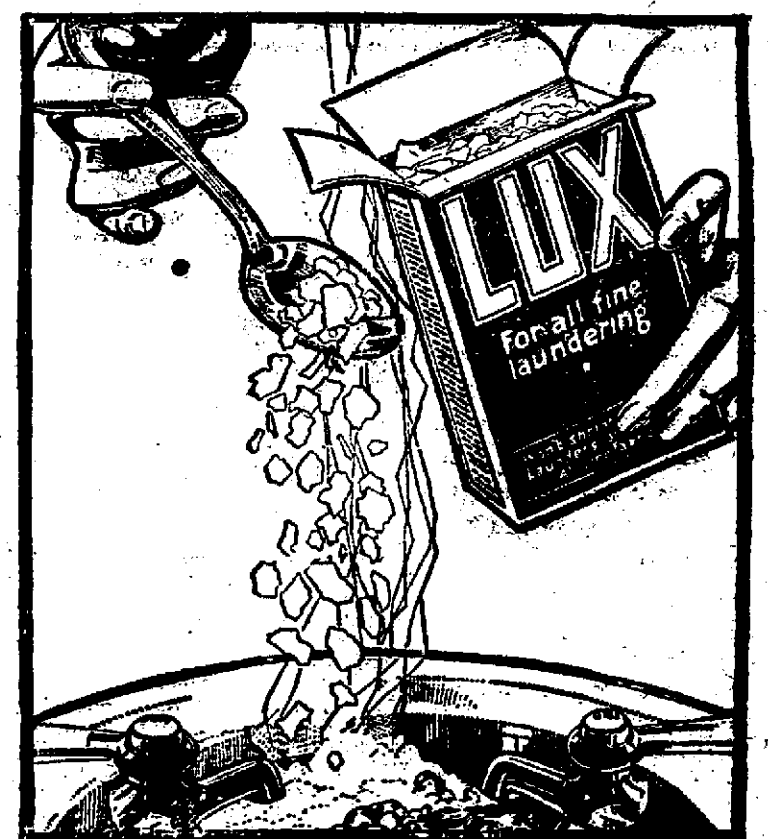

over again, and it will stay as white as when you bought it.

### Remember these precautions:

Never rub silks.  
The Lux suds when used must be lukewarm.  
Rinse perfectly in lukewarm waters.  
Never dry in the sun.  
Stretch thoroughly and press when nearly dry.  
Never have your iron very hot.

### What its users think of Lux

"Before using up one box of Lux, the uses had all been justified to my complete satisfaction and delight. 'Does not shrink woolens'—proved by washing a white woolen sweater. 'Does not turn silk yellow'—the constant laundering of crepe de Chine and silk waists justifies this claim. I get twice as much wear out of my silk blouses. Have found Lux especially good

Whisk a tablespoonful of Lux flakes into a lather in hot water, and instantly you will have just such a rich, creamy lather as you have always wanted.

for fine laces and lace curtains because no rubbing is required. A white lace Syrian scarf with silver in it, which had previously been sent to the cleaners, looked like new when washed with Lux, and saved me one dollar besides."—D. Fullerton, N. Y. City.

"Lux has greatly prolonged the life of my chambray and silk gloves. For washing blankets I consider it quite the most wonderful soap ever made. And I use it for unusual things which you wouldn't ever dare to try to wash with any other soap. For instance, I washed my silk lamp shades in the bath tub with Lux, and they came out in absolutely perfect condition, quite as good as the day they were bought. There is nothing like Lux."—Mrs. J. R. Barker, Cambridge, Mass.

"I used your Lux for some very fine laces with better results than I could get from other preparations, using less soap, time and energy."—Mrs. P. Dreyer, 532 East 29th St., N. Y. City.

### Now on sale at grocery, drug and department stores

The claims for Lux sound so remarkable, they have been made so often for other products when they were not really true, that you may not credit what we have told you about it. But will you not get just one package of Lux and make these tests yourself? If you are not entirely satisfied, your dealer has been instructed to return your money. Once you have actually seen Lux and used it yourself, we know you will tell other women that you have at last found the ideal soap product for all fine laundering.

## Do This Each Morning, You Won't Need Cascarets

Great exercise! Keeps Stomach, Liver and Bowels active. Nothing like it! Splendid!

But if you insist upon taking your exercise in an easy chair you simply must take a laxative occasionally. The very, very best laxative is Cascarets—10 cents a box. "They work while you sleep."

Nothing else works the bile, sour fermentations and poison from the liver and bowels like harmless Cascarets. When Headache, Bilious, Constipated or if Breath is Tainted, Complexion Sallow, Stomach Sour, just take a Cascaret at night. Wake up next morning looking rosy and feeling fine. Cascarets never gripe or sicken. Cause no inconvenience!

## Their Medicine Chest For 20 Years

It is characteristic of folks after they pass the allotted "three score years and ten" to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user, which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestine, while others would act only on the lower or large intestine, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula known as **Dr. Lewis' Remedy**, which I truly believe goes further

and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of **Dr. Lewis' Remedy** as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and the results of its use in my own family and among my friends, before I ever offered it for sale, caused me to have great faith in **Dr. Lewis' Remedy** from the very first.

And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or older than I, who tell of having used **Dr. Lewis' Remedy** for ten, fifteen and twenty years, and how they and their children, and grandchildren have been benefited by it.

It is a comforting thought, my friends, for a man at my age to feel that aside from his own success, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a **Dr. Lewis' Remedy** (DR. LEWIS' TABLETS) and will be better, happier people for it. I hope you will be one of them.

## OBITUARY

### Sergt. Beck's Funeral.

The funeral of Sergeant George C. Beck will be held at the home of his parents, Mr. and Mrs. George E. Beck, at 57 North First street, Wednesday afternoon at 2 o'clock under the auspices of the Masonic order, Rev. J. H. Klein of Columbus officiating. Interment will be made in Cedar Hill cemetery.

The young soldier was a great favorite at camp with his comrades and superior officers as well. He enlisted 13 months ago and only lately had been promoted to top sergeant, being in line for a commission. His father, mother and sister, Miss Lillian, were with him at the time of his death and ministered to him tenderly during the latter days of his illness at Camp Sherman. His death was due to typhoid pneumonia which he contracted after convalescing from influenza.

### Tribute to William Hillman.

The following tribute to William Hillman, Jr., high school student, who died Sunday of influenza, was written by one of his former teachers:

It is with very deep sorrow that the friends of William Hillman, Jr., learn of his sudden death. A stalwart young man of the senior class of the High School has fallen, and his classmates and teachers are grievously shocked, for William was popular with them.

He probably had his faults as all of us have, but his virtues were so pronounced that it is fitting to pause and consider them. He was a young man of clean habits and tried to do the right at all times. He was very industrious. His patriotism was of the highest sort, for it was with difficulty that he refrained from volunteering his services to his country before reaching the age when government would call him. During the past summer, he attended Culver Military academy in preparation of being called into service at the close of his high school days.

Although an excellent student he was no bookworm, but was active in the outside activities of the school. He interested himself in athletics and was active in Y. M. C. A. work. Through his short life of 17 years he left an impress upon his many friends that shall abide. He has given to the school and to the world outside an example of a modest Christian life.

### Joshua M. Hull.

Joshua Muttitt Hull, aged 64, died this morning at 5:20 at the Sanitarium of paralysis. He is the son of Eli Hull 686 West Main street.

The funeral will take place from the home of his father. Arrangements have not been made.

### John McVicker.

Mr. and Mrs. William Sherrard of North avenue received a message from their daughter, Mrs. McVicker, of Hatter, North Carolina, telling of the death of her husband John McVicker 32 at that place of pneumonia. He was ill a week. Mr. McVicker was a brilliant and Ohio engineer and railroad man here for a number of years. Two years ago he was granted a leave of absence and went south where he has been an engineer on the Sea Board Air line. Besides his wife and one child, John William aged 6 and one brother Walter of this city. He was a member of the B. of L. E., B. of L. F. and the Masonic lodge. The body will be brought here for burial.

### Mrs. Parsons Funeral.

The funeral of Mrs. Margaret Parsons, who died Saturday, was held this afternoon at 1:30 o'clock in the home, Vine street, Rev. A. E. Cox officiating. Burial was made in Granville.

### Mrs. Vermillion's Funeral.

The funeral of Mrs. John Vermillion, who died Monday, will be held Wednesday at 2 o'clock at the home. Burial will be made in Shannon cemetery.

### Mrs. Charles Campolo.

Mrs. Charles Campolo, 29, died Monday afternoon at 4 o'clock of pneumonia at her home, 54 Webb street.

An infant, born Sunday, died this morning.

Besides her husband she leaves six children—Grace, Rosie, Daniel, Clara, Annie, Mary and Adelaide—her parents Mr. and Mrs. Ray, and one sister Mary, a brother, Joseph Ray, lives in New Jersey.

Funeral will be held Wednesday at 2 o'clock in the home, Rev. Father Waterson officiating. Burial in Mt. Calvary cemetery.

### Hillman Funeral.

The funeral of William Hillman who died Sunday evening will be held Wednesday afternoon at 2 o'clock in the home 151 Rugg avenue. Burial in Cedar Hill.

### Card of Thanks.

We desire to extend our sincere thanks to our friends and neighbors for their kindness and sympathy shown us at the loss of our dear beloved son and brother, Walter Guy Frush; also to the Crisis Brothers, the Rev. J. C. ### Card of Thanks.

I take this means of expressing my sincere and heartfelt thanks to the neighbors and friends, for their sympathy extended to me in the recent death of my beloved husband, Charles E. Stricklin, who died in the service of his country, on the hospital ship Solace, to the Knights of Pythias for their kind assistance, Rev. Mr. Stull for his consoling words, his employees and others for the beautiful floral offerings; also Cliff Stewart, the undertaker for his untiring efforts in my hour of bereavement. 10-15-11 x

**FATHER DRUNK, SLEEPS WITH SON IN HIS ARMS**

The police department received a call yesterday to go to the campus adjoining the Midland Shoe company where a drunken man and child were lying on the lawn. The fellow proved to be a tourist from Chicago Junction on his way to West Virginia. When found he was dead to the world and his nine year old son was asleep in his arms. When awakened the little fellow said "please let papa sleep."

The youngster stated that his sister was with them but had gone to town to buy something to eat. She was loathed and said she was. The youngsters were turned over to Probation Officer John Dwyer, who found them lodging for the night and today the father and children were sent to their destination. He was amply provided with funds. He brought his "goods" with him from the junction town.

## Our Boys and Girls

If a family is composed, for the most part, of boys, the girls often make life miserable for them by selfishly appropriating the chief pleasures for themselves. Boys and girls in a family should be brought up in the same way, and what is right for one should be conceded right for the other.

Little disputes in regard to family rights should be decided on their merits, and not with consideration of sex. Boys should be taught to protect their sisters, but should not be allowed to enter the home with where they are inspired by pure selfishness.

## SOCIAL EVENTS

### Courson-Francis.

Mr. George R. Francis and Miss Marjorie Courson were united in marriage Tuesday evening, Oct. 8, at 7 o'clock at the parsonage of Rev. L. C. Sparks. They were attended by the bride's mother, Mrs. S. L. Courson and the groom's father, Mr. W. A. Francis. The bride wore a blue crepe-de-chine dress and carried roses. A three course dinner was served at the rooms of the bride. The ceremony was a private one, the immediate families and following guests: Alice McGinnis, Aubrey Sherman, William Willey. After Oct. 11, Mr. and Mrs. Francis will make their home with the bride's parents at 229 Boylston avenue.

### Friscien-Moran.

Miss Eva Moran and Othmer Friscien were quietly married this morning at 8 o'clock in St. Francis de Sales church. The ceremony was performed by Rev. E. M. O'Boylan. Only the two families were present. Breakfast was served at the bride's home. Miss Moran is the daughter of Mrs. Elizabeth Moran of South Sixth street. Mr. Friscien is the son of Mr. and Mrs. Louis Friscien of Hebron road. Mr. and Mrs. Friscien left for a trip to Cleveland.

On account of the closing order issued by the board of health, the Season club will not meet until further notice in this paper.

**There's a Reason—Needs But Little Sugar**

Beauty of the feet can never be obtained if a woman has corns or bunions. There are two varieties of corns, hard and soft. The soft corns come between the toes. If you have a soft corn you may protect it by placing a bit of cotton, sprinkled with alum, between the toes. Unless you insert the absorbent cotton to prevent the toes from rubbing together, a second corn will appear on the opposite surface of the opposite toe. So, place of cotton, applied to a soft corn, is an effective remedy. The corn should be relieved from all pressure. For this purpose the perforated corn plaster may be used, or a disk of white kid or chamois with a hole in the center.

Ingrowing toe nails cause an immense amount of foot misery. Improper footwear and improper methods of cutting the nails are the reasons for this ailment. If you cut your nails too short or wear a shoe that is too short or too narrow, you will force the skin of the toe over the nail. The flesh of the toe is pushed still further over, until a point is reached where inflammation sets in.

Cut the toe nails squarely across. Do not trim them so close as to destroy the spongy substance beneath the nails. This substance is a special guard to prevent them from growing into the flesh. If there is a tendency for the flesh to grow over the nails, push the flesh back from the nail and fasten it in this position with a strip of oxide of zinc plaster. Under the nail edge insert a gauze wadding.

Bunions are the result of great pressure and friction of the joint. If not attended to, this inflammation may lead to destruction of the bone. First the joints must be relieved of all pressure. A shoe, large enough for comfort must replace the tight one that started the trouble. Shoes large enough and stockings long enough, will help.

## MILLIONS USE IT TO STOP A COLD

"Pape's Cold Compound" ends  
severe colds or grippe in  
few hours.

Relief comes instantly.  
A dose taken every two hours until  
three doses are taken will end grippe  
miserably and break up a severe cold  
either in the head, chest, body or limbs.  
It promptly opens clogged up nostrils  
and clears passages in the head, stops  
runny discharge or nose-running, re-  
lieves sick headache, dizziness, fever-  
ishness, sore throat, sneezing, soreness  
and stiffness.

Don't stay stuffed-up! Quit blowing  
and snuffing! Ease your throbbing  
head! Nothing else in the world gives  
such prompt relief as "Pape's Cold  
Compound," which costs only a few  
cents at any drug store. It acts with-  
out assistance, tastes nice, causes no in-  
convenience. Be sure you get the genu-

## REPLY BOOSTS SALE OF LIBERTY BONDS

(Associated Press Telegram)  
Washington, Oct. 15.—Liberty loan  
subscriptions have been stimulated by  
President Wilson's reply to the Ger-

## PRESIDENT'S NOTE

(Continued From Page 7.)  
should be required for its delivery at  
Berlin through the Swiss foreign office.  
Washington has undergone a per-  
ceptible relaxation of tension since  
yesterday. Every one who had feared  
that the President's diplomacy would  
bring a relaxation of military effort or  
a compromise with a faithless enemy,  
wear an air of relief. Everywhere the  
feeling is apparent that the atmosphere  
of peace is being created. The Ger-  
man came forward with his peace drive;  
that the purposes of the United States  
and the allies are more than ever  
clearly stated and that the powers in  
Berlin and the German people now  
must see the futility of their at-  
tempts to avert the defeat in sight by  
compromise.

So far the President has dealt only  
with the proposal of the German gov-  
ernment, leaving unanswered similar  
pleas for peace from Austria-Hungary  
and Turkey. There is no indication  
that these allies of Germany will hear  
from him until the dominant factor in  
the central alliance makes another  
move, unless one or both of them in  
the meantime should please to seek  
surrender without regard to the  
course or fate of the power that hith-  
erto has governed their actions.

Cut off by the defeat of Bulgaria and  
cowed by the victorious British armies  
Turkey already virtually is out of the  
war and a separate appeal from the  
reorganized government at Constanti-  
nople is looked for momentarily.

## BRITISH COUNCIL GETS PRESIDENT'S REPLY

(Associated Press Telegram)  
London, Oct. 15.—The text of Presi-  
dent Wilson's reply to the German  
peace offer, received through press  
channels, was placed in the hands of  
the members of the British govern-  
ment early this morning. The council  
met shortly after 11 o'clock to consid-  
er the President's response.

## PRINCE MAX MAY NOT STAY AS CHANCELLOR

(Associated Press Telegram)  
London, Monday, Oct. 14.—Dispatch-  
es from Holland report there is a prob-  
ability of another turnover in the Ger-  
man chancellorship. The Berlin Na-  
tional Zeitung prints a report of a  
meeting held yesterday by an inter-  
party committee at which discussion  
turned to the letter Prince Max wrote  
to Prince Alexander revealing a  
markedly different attitude in political  
affairs from that proposed in his re-  
cent address to the Reichstag.

The committee, according to the  
newspapers recognized the situation  
produced by the publication of the let-  
ter rendered Prince Maximilian's re-  
tention in office doubtful.

## ASSERT HINDENBURG URGED PEACE PLEA

(Associated Press Telegram)  
Washington, Oct. 15.—It was Field  
Marshal Hindenburg himself and not  
the supposedly pacifist premier,  
Prince Maximilian, who caused the  
German government to accept Presi-  
dent Wilson's peace terms and seek an  
armistice, according to advices which  
reached Washington today through of-  
ficial sources by way of a neutral  
country.

According to this version, knowing  
the desperate condition of the German  
army himself better than any civilian,  
and especially the fact that there is  
now no supply of raw materials to re-  
plenish the exhausted stocks of mun-  
itions of war, von Hindenburg in-  
sisted upon the application for an  
armistice. Prince Maximilian is said  
to have resisted strongly, only to be  
overruled by the majority of the war  
council at which were present the  
heads of the German states. This is  
pointed to as the explanation of why  
the German note in response to Presi-  
dent Wilson's inquiries was signed by  
Dr. Bauer, the minister for foreign af-  
fairs, although the prince had initi-  
ated the correspondence.

From the same sources is cabled a  
prediction that the German defensive  
cannot be continued without a debacle  
for more than three months at the out-  
side. This statement, however, is an of-  
ficial is based on belief that a great  
revolution is impending in Germany.  
The majority of the people being deter-  
mined to have peace at any price.

## PARIS JUBILANT OVER REPLY TO MAXIMILIAN

(Associated Press Telegram)  
Paris, Oct. 15.—President Wilson's re-  
ply to German peace terms given to the  
public in extra editions of the after-  
noon newspapers published at noon today.  
It immediately became the absorbing  
topic of discussion in all public places.  
The tone of the sentiment was distinct-  
ly favorable to the peace, the prevailing  
note being one of jubilation.

## AUTOCRACY MUST GO, PRESIDENT DECLARES

(Associated Press Telegram)  
Washington, Oct. 15.—The following  
is the text of President Wilson's reply  
to the second German peace proposal:  
The text of the President's answer  
follows:  
"I am qualified acceptance by the  
present German government and by a  
large majority of the reichstag of the  
terms laid down by the President of  
the United States of America in his  
address to the congress of the United  
States on the 8th of January, 1918, and  
in his subsequent addresses, and the  
President in making a frank and  
direct statement of his decision with  
regard to the communications of the  
German government of the 8th and  
12th of October, 1918.

"It must be clearly understood that  
the process of evacuation and the con-  
ditions of an armistice are matters  
which must be left to the judgment  
and advice of the military advisors of  
the government of the United States  
and the allied governments, and the  
President feels it his duty to say that  
no arrangement can be accepted by  
the government of the United States  
which does not provide absolutely sat-  
isfactory safeguards and guarantees of  
the maintenance of the present military  
supremacy of the armies of the United  
States and the allies in the field.

"He feels confident that he can safely  
assume that this will also be the

bears evidence that another fresh divi-  
sion has been brought up to meet the  
steady pressure of the Americans.

The artillery counter-section was  
somewhat different than usual. On the  
least indication of movement in the  
American lines the Germans laid down  
a barrage of such intensity as it ordi-  
narily used only preliminary to an of-  
fensive. Not content with their art-  
illery defense the Germans made an ex-  
traordinarily liberal use of gas. Thou-  
sands of gas shells, both mustard and  
lethal, were hurled into the rain-sat-  
urated woods and ravines through-  
out the American front.

Although the gas clouds clung tena-  
ciously to the ground, the Americans  
were not seriously hampered in the  
general operations. Discipline and ex-  
perience have taught them the value of  
skirmishers.

Flying low above the German lines  
airmen launched heavy gusts of ma-  
chine-gun fire on the forces north of  
the German line.

The roads, woods and fields over  
which the men fought were softened  
by the long rains and progress was  
difficult. Nowhere, however, was there  
any apparent reduction in the spirits of  
the men.

## ALLIES CAPTURE FULL HUN REGIMENTAL STAFF

(Associated Press Telegram)  
Monday, Oct. 14 (9 p.m.).—Enemy re-  
sistance in Flanders which at first ap-  
peared to be exceedingly heavy, is re-  
ported to have been broken. After the  
British, French and Belgian advance  
today there was indication that the  
enemy was withdrawing the remainder  
of his material from the coast of Bel-  
gium.

The enemy artillery reacted heavily  
south of Roulers after the allied attack  
was launched north of the city this  
morning. The enemy's heavy artillery  
was very slight, indicating that the  
German guns had been withdrawn or  
were being taken back by the en-  
emy. The German rear guards were  
overcome and further north the enemy  
resistance gradually grew lighter as the  
sault progressed. Among the pris-  
oners was a complete regimental staff  
and a battalion commander.

The enemy has begun blowing up  
material which he could not remove  
and the torch is being applied to the  
towns that are being abandoned by the  
Germans. There have been four ex-  
plosions near Berst. The fact that the  
coast batteries are not firing has  
been driven west to east. The  
fish naval forces are operating off the  
coast. One report even went so far as  
to say that Ostend, which seems bound  
to be evacuated by the enemy, has  
been taken by British monitors.

There is no confirmation of these re-  
ports.

Only a thin enemy barrage was en-  
countered by the British during their  
advance south of Lichtervelde, the  
British have driven west to east. They  
have passed through Roulers and are  
still advancing. They are also operat-  
ing quite a distance east of the Menin-  
Roulers road.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr.  
Edwards' Olive Tablets are  
a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substi-  
tute for calomel—are a mild but sat-  
isfactory, and their effect on the liver is  
almost instantaneous. They are the result  
of Dr. Edwards' determination not to treat  
liver and bowel complaints with calomel.  
His efforts to banish it brought out these  
little olive-colored tablets.

These pleasant little tablets do the good  
that calomel does, but have no bad after-  
effects. They don't injure the teeth like  
strong liquids or calomel. They take hold  
of the trouble and quickly correct it. Why  
are the liver at the expense of the teeth?  
Calomel sometimes plays havoc with the  
gums. So do strong liquids. It is best not  
to take calomel, but to take Dr. Edwards'  
Olive Tablets take its place.

Headaches, "dizziness" and that  
familiar feeling come from constipation and  
a disordered liver. Take Dr. Edwards'  
Olive Tablets when you feel "lumpy" and  
"heavy." Note how they "clear" clouded  
brain and how they "perk up" the spirits.

## WHAT THE U. S. GOVERNMENT SAYS ABOUT CHRISTMAS BUSINESS

**THE GOVERNMENT** says that Christmas business must be spread over three months to avoid the usual December congestion. It means that the retail merchant should order his Christmas stocks at once, get them on sale as early as possible, and do all he can to encourage early buying.

The retail interests represented at the conference have agreed:

First—Not to increase their working force by reason of the holiday business over the average force employed by them throughout the year and not to increase the normal working hours of their force during the Christmas season.

Second—They also agreed to use their utmost efforts to continue Christmas giving, except for young children, to useful articles and to spread the period for holiday purchases over the months of October, November and December. In order to relieve the transportation facilities of the country from a congestion in the latter half of December, which would be so harmful to the interests represented at this hearing, have agreed to co-operate further in the campaign heretofore and now being carried on under the auspices of the War Industries Board to restrict deliveries and to induce their customers to carry their own packages wherever possible.

Third—The retail interests, to which reference has been made, have further agreed to make an announcement to the above substantial effect in their advertisements, commencing in early October and repeating same weekly thereafter.

## WAR INDUSTRIES BOARD REQUIRES BUILDING PERMITS

The War Industries Board has ruled that all new undertakings not essential to the war effort must be subject to direct or indirect control of the war which involves the utilization of labor, material and capital required in the production, supply or distribution of direct or indirect war needs. It will be discouraged notwithstanding they may be of local importance.

The manufacturers of the principal building materials have agreed to co-operate with the War Industries Board in carrying into effect the spirit of the board's action.

Before proceeding with new construction work it will be necessary to obtain a permit from the local board which consists of J. E. Spillman, chairman, John A. Chilcote of this city and John H. Meyer of Buckeye Lake.

Repairs of or extensions to existing buildings involving in the aggregate a cost not exceeding \$2500 may be made without a permit.

Should one contemplating building conceive his proposed project to be in the public interest or of such essentiality that it should not be delayed, then he will make a full statement of the facts in writing, under oath, and present same to the board, applying to a member of the board for his approval of the proposed construction. If the project be approved the construction may proceed.

The construction process which must now be deferred may be undertaken when the war is over.

## FORMER NEWARK MAN IS PROMOTED BY BANK

At a meeting of the directors of the Norwood National Bank Monday, J. Earl Coed was made cashier, succeeding H. W. Harrison, who recently resigned to engage in banking in Winchester, Ky. Mr. Coed, during a career extending over 17 years, has acquired an experience covering every phase of the banking business that splendidly equips him for the importance of his new position. Shortly after his graduation from the Ohio State University he joined the Farmers' Bank at Ellettsburg, Iowa. The following year he was made assistant cashier of the Licking County Bank and Trust company at Newark. Later he went to the Fifth Third bank of Cincinnati where he remained for seven years. He then came to Norwood where for five years he has been assistant cashier of the Norwood National. His service in each instance was of the nature that brought him steady advancement. A life member of this business move, as that President Oliver Coover was born and reared in the same county, Mr. Coed is a well-known and long friend of the Norwood National.

## NEWARK NURSE TAKES CARE OF LOCAL SOLDIER

For a number of weeks past, the nurse at the Newark hospital has been taking care of a local soldier who is recovering from his wounds. The soldier is a native of Newark and has been in the service for some time. The nurse, who is a local woman, has been very kind and attentive to his needs. The soldier is now in good health and is expected to be discharged soon.
